

PLEASE Do Not change the 'Do Not Call List' program in Wisconsin to allow the Banking Industry or any other Marketing company to call us to solicit business. The Banking Industry says they need to be able to contact their customers. They can do that through the U.S. Mail which has always been available to them. We are extremely pleased with the Do Not Call program since its inception. It's a real pleasure not getting bothered by 'pressure' calls during the day and evenings. Thank You for Your Consideration of our request.
